

# Support Teams

## WHAT WE DO:

We visit women who work in clubs and parlors to be a friendly face and offer a point of contact.

We call in regularly and bring baked goods to share.

We can sit and chat, share a cup of coffee or help connect women to support service.

## WHO WE ARE:

We are simply women who care (we are not social workers or therapists). We are connected with The Salvation Army which has a broad network of services and support groups including:

- Housing support
- Drug and alcohol counseling
- Domestic violence and emergency assistance
- Social services - food, clothing, necessities
- Job and employment support
- Children's groups and activities
- Local community groups and support networks

***If you need help, our goal is to find a person, program or service to help you.***

## YOU CAN CONTACT US:

Every time we visit we leave a card with our name and contact number on it. You can call us at any time and we will visit or try and connect you with whatever support or help you may need.
